Email : aryatejconferences@gmail.com

ABOUT COLLEGE

Gujarat is recognised as an educational hub led by premier institutions such as IIM-A, IRMA and NID in Ahmedabad & Aryatej group of colleges in Morbi.

Aryatej Group of Colleges is committed to delivering quality, career-oriented and value-based education that prepares students to meet the evolving demands of the professional world.

Located in Morbi, Gujarat, the Group focuses on creating an environment that combines academic excellence, practical learning and holistic development. Through a student-centric approach and dedicated faculty, Aryatej strives to nurture competent, confident and responsible professionals.

Our educational ecosystem encourages students to develop critical thinking, professional competence, leadership capabilities and strong ethical values.

OUR MISSION

To empower students with knowledge, skills and values that enable them to achieve professional excellence and contribute meaningfully to society.

We are committed to providing a structured, inclusive and progressive learning environment supported by effective teaching methodologies, practical exposure and continuous academic development.

OUR VISION

To establish Aryatej Group of Colleges as a recognised centre of academic and professional excellence, fostering innovation, leadership, integrity and lifelong learning.

Our vision is to prepare students not only for successful careers, but also for meaningful contributions to their communities and the wider society.

ACADEMIC EXCELLENCE

Aryatej Group of Colleges offers educational opportunities across diverse disciplines, with a focus on developing industry-relevant knowledge and professional capabilities.

OUR APPROACH

STUDENT-CENTRIC LEARNING

We place students at the centre of the learning process and encourage active participation, independent thinking and continuous improvement.

PROFESSIONAL DEVELOPMENT

Our academic approach focuses on building the technical knowledge, communication skills and professional competencies required for today's competitive environment.

HOLISTIC GROWTH

Beyond academics, we encourage the development of leadership, discipline, confidence, teamwork and responsible citizenship.

VALUE-BASED EDUCATION

We believe that professional success is strengthened by integrity, accountability, respect and ethical conduct.

OUR COMMITMENT

At Aryatej Group of Colleges, we believe that education is the foundation for sustainable personal and professional growth.

Our commitment is to create capable graduates who possess the knowledge, confidence, skills and values required to navigate a rapidly changing world.

ARYATEJ GROUP OF COLLEGES

Empowering Education. Enabling Futures.

ABOUT ASHA GROUP

ASHA group (Asian Social Sciences and Humanities Association) is an academic and research-oriented platform committed to promoting research, knowledge sharing, academic collaboration, and professional development among professors, academicians, research scholars, and students. With a vision of creating meaningful academic opportunities, asha group provides a common platform where researchers and students can present their work, exchange ideas, develop collaborations, and contribute to the advancement of knowledge.

A major achievement of asha group is the successful organization of 10 international conferences. These conferences have brought together academicians, professors, researchers, research scholars, educators, and students from diverse disciplines and regions. Each conference has provided opportunities for research presentation, knowledge exchange, networking, and meaningful academic interaction.

A significant milestone was the successful organization of the 10th international conference, "synergia bharatam–2026: global research and indian wisdom," held in august 2026 at ambaji, gujarat. The conference witnessed exceptionally high registration and participation, creating a remarkable milestone in the journey of asha group. With large-scale academic participation, the conference achieved a world-record-level achievement, reflecting the growing trust and recognition of asha group within the academic community.

Asha group is not limited to organizing conferences. It actively works to create a strong and supportive research ecosystem. Professors and research scholars are provided with opportunities to present and publish their research, participate in academic conferences, interact with fellow researchers, exchange knowledge, and develop meaningful professional collaborations. The organization encourages multidisciplinary and socially relevant research that can contribute to education and society.

One of the important objectives of asha group is to provide academic support to students, especially those at the grassroots and last-mile level. Asha group believes that every student should have access to academic guidance, research opportunities, and platforms that help them develop their knowledge and confidence. Through various academic initiatives, the organization strives to connect students with researchers and academicians and encourage them to participate actively in research and learning activities.

Today, asha group is actively present across five states of india and has a growing community of more than 2,200 members. This network includes professors, academicians, research scholars, students, and research-oriented individuals who share a common commitment to learning, research, and academic development.

The strength of asha group lies in its commitment to knowledge sharing, collaboration, inclusion, and academic excellence. It believes that research should not remain limited to classrooms or institutions but should reach society and contribute to addressing real-world challenges.

The journey of asha group, from organizing its first conference to successfully completing 10 international conferences, represents continuous growth, dedication, and commitment to the academic community. The organization aims to further expand its academic network, promote multidisciplinary research, support young researchers and students, and create more opportunities for national and international collaboration.

Asha group stands for research, knowledge, collaboration, and academic empowerment. Its vision is to build an inclusive and vibrant academic community where professors, researchers, scholars, and students can learn, collaborate, grow, and contribute meaningfully to society.

With its growing network, successful academic initiatives, and strong commitment to research and education, asha group continues its journey toward creating a stronger and more collaborative academic ecosystem in india and beyond.
